

A graphic featuring a puzzle. The left side has black puzzle pieces, one of which is missing, revealing a butterfly. The right side has blue puzzle pieces showing a globe of the Earth.

IPT Targeted LowDose Therapy

Growing Our Global Community

Eighth Annual IPTLD Conference

October 21-24, 2010

Pretoria, South Africa

Save the Date!

Three years ago, Dr. Donato Perez Garcia announced the 2010 IPTLD Conference to take place in beautiful Pretoria, South Africa - and before the end of our momentous conference this October, we were hearing from participants committed to making this a reality. Now it's official! **The 2010 Annual International IPTLD Conference is taking place October 21-24, 2010 in the beautiful setting of Pretoria, South Africa!**

The Setting

Pretoria, South Africa is especially breathtaking, and never more so than in October, spring in South Africa. Nearly 70,000 exotic Jacaranda trees are in full bloom, filling the air with their sweet fragrance. The city is transformed by these picturesque purple cloud-like trees, lending Pretoria the moniker, "The Jacaranda City."

Plan for Exploration

With consideration to travel time and the many activities that South Africa has to offer, this gathering is a four-day event, with mornings devoted to the conference and afternoons to exploring in groups, pairs, or individually. We are planning exciting add-on packages for sightseeing after the conference to make this a cherished trip of a lifetime!

Plan for Learning

We are putting together a truly international and memorable conference, and we look forward to your participation as our global community strengthens and grows. We are inviting you to share your expertise, your voices and your commitment to our global IPTLD community and the rise of health and healing.

Registration

Be on the watch this month for the beginning of online registration. In the meantime, think on what you and your team are committed to creating and plan accordingly. ***If you are committed to being part of a global community that is creating health and wellness in our world then begin with these steps:***

- Budget for airfare, lodging, meals and group activities
- Set aside clinic operating expenses to cover at least one or two weeks
- Consider placing notification on your clinic website that you will be attending this event so that prospective patients are aware in advance of your intentions for these dates
- **Look to the www.iptld.com website within the next month and register in advance to assure your participation in our global expansion!**

Sustainable Travel

We are fortunate to be living in a time and place where we are conscious and aware of how our actions impact others and the planet on which we live and love. Visit Sustainable Travel, International and learn how we can plan our travel respectfully and conscientiously:
